

Table 1
primary key

Table 2

primary key + foreign key

inner join
Left Join
Right Join
Full Join
(Left + Right)

Col Common Col 90 Row scheme to the table
(2nd Table 92 93 94 95 Row involved)

→ 96 join to 97

Alias

Temporary short name

AS

SELECT column(s)

FROM Table A

Left Join Table B

SELECT * FROM table-name

Select x, y, z from table-name

particular
x, y, z

select * from table-name

Select * / col

From As

JOIN

ON =

Equation 90 RHS 91

Always join 92 93 94 95

Table 96 same

JOIN

Join 9 overlap 92 93 → Null 94

Select 9 basically 92 output 9 93 94 95 96 97 98 99 100

(*) એ સ્કેલો એ એન્ટિટી અને એન્ટિટી relation.

ENUMS → Special type Category → week days → Directions (N, S, E, W)

Answer 9 કોન કોલ પ્રિન્ટ કરાવવા માટે ?

(2) SELECT

AND select col

(*) કોન કોલ condition આપવા માટે where :-

(*) Null સ્થાનમાં include કરવા માટે :-

DISTINCT → Duplicates avoid કરવા

LENGTH AND CHAR_LENGTH() → character length of a string

JOIN અને Table નો ઉપયોગ

FROM X JOIN Y

1st Priority

2nd Priority

જોડવા માટે જોડવાની શરતો

For Basis of Join table?

$(x, y) \rightarrow$ primary key
($\rightarrow$ col as combination)
 $\downarrow$
every 9th foreign key

ANY vs ALL

ANY (Query)

ALL (Query)

Is not min list of those 2.
