CSE 446: Blockchain and Cryptocurrencies, Spring 2026, Assignment - 1

Marks: 5

Deadline: May 9, 2026

1. Draw the network configuration of a Hyperledger Fabric network that satisfies the following criteria:

- There are four organisations: Bank1, Bank2 and Bank3, each having their respective CAs: CA1,...,CA3 and peers: P1,...,P3
- There are three channels (C1, ..., C3), three ledgers (L1,...,L3) and six chaincodes (S1,...,S6)
- L1 is connected to C2, L2 to C3 and L3 to C1
- Bank1 is connected to C1 and C2, Bank2 and Bank3 are connected to C1 and C3
- S1 and S3 are deployed in C1; S2, S3 and S4 are deployed in C2 and S5 and S6 are in C3.

The network configuration should highlight which Peer is connected to which channels with access to the respective chaincode and ledger, just like the network configuration shown in the lecture.

Write down your name and ID on the top of your answer paper. Scan your answer as pdf, name it as yourID_CSE446.pdf and submit via: <https://forms.gle/TuGJFBRu5S5LxkQD6>
